

I am writing to address the LPFM issue. I am a current K-LOVE listener and supporter. This station serves me by giving me a radio station my entire family (including young children) can listen to without hearing inappropriate language or commercials. Local events are given on my K-LOVE station as well as national news that I can't get on any other local stations. Many local charity events would lose valuable publicity if K-LOVE were replaced by an LPFM. I know many people who listen to K-LOVE not only in my local area, but also across the nation. K-LOVE provides a positive and encouraging impact on communities all across America. Losing K-LOVE would be a detriment not only to my local community, but the nation as well.
